OUR PRODUCT LINE-UP

VIDEOTEC has specialized in the creation of high performance CCTV products for the monitoring of outdoor environment, keeping a close eye of the industry's ever growing needs.

WHAT

Our products are well known for their design, performance, quality. They are the results of skilled craftsmen combined with an engineering team with many years of experience in the field of video surveillance.

The wide product range includes PTZ camera positioning systems, certified explosion-proof camera systems, heavy duty housings and PTZ, night LED illuminators, video management systems, advanced artificial intelligence devices and much other.

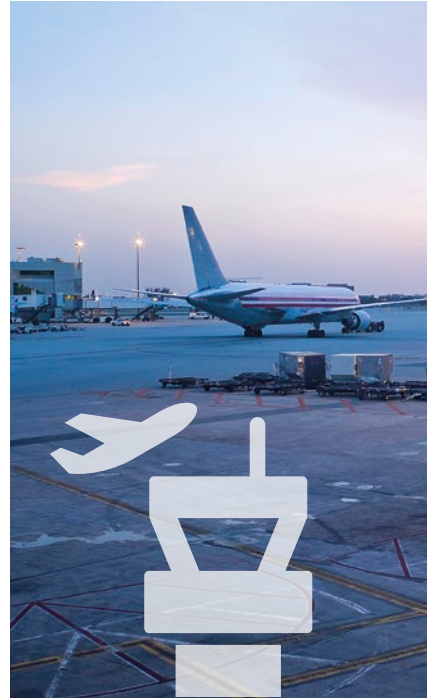

Our products connectivity is based on high resolution analog and IP architecture, providing the highest degree of protection and immediate situational awareness, thus the response to threats and incidents is rapid and effective.

VERTICAL MARKETS: UNLIMITED FIELDS OF APPLICATION

The field of use of our broad product range is extremely vast: traffic control, urban surveillance, government applications, public and private facilities, commercial businesses, prisons, stadiums and border control.

We have a strong presence in special industries such as offshore/onshore Oil & Gas industry, marine and harbour applications, environments with high temperatures or particularly severe climatic conditions.
